UNIVERSITY OF OXFORD.

(Founded 872.)

	Elected.
CHANCELLOR, the Marquis of Salisbury	1869
VICE-CHANCELLOR, The Very Reverend Henry G. Liddell, Dean of Ch. Ch. . . .	1870
REGISTRAR, Reverend E. T. Turner, M.A.	1853

The following statement gives the chief particulars concerning the *University of Oxford* as a place of Education in its relations to Medicine.

The affairs of the University are managed, and its regulations are made, either by a Convocation consisting of all Doctors in Divinity, Law, and Medicine, and Masters of Arts, or by the Resident Doctors and Masters, or by the Council.

There are 24 Colleges and Halls in Oxford. Every Student must reside in one or other of these for a period of three years, or, being matriculated, reside in lodgings during that time.

During these three years, he has to pass at least two Examinations in Arts, and one in either Mathematics, Natural Science, or Law and Modern History, when if he obtain a first, second, or third class, he can take his B.A. degree; if he do not gain such honours, he has to pass a third examination in Literis Humanioribus.

A Student deciding to graduate in Medicine should proceed as follows:

1st. To enter at a College or Hall or become an unattached Student by applying to the "Delegates of Unattached Studies."

2nd. To pass the requisite Examinations in Arts.

3rd. After passing the requisite Examination for the degree of B.A., to spend two years in study * prior to a Scientific Examination for the Degree of Bachelor of Medicine; and two years more prior to the final or practical Examination for the same Degree. These four years of medical study may be spent either out of or in Oxford, at a first-class Hospital.

This Degree confers the Licence to Practise. For the Degree of Doctor in Medicine a dissertation has to be publicly read three years after the B.M.

The instruction in Natural Science is carried on at the MUSEUM, where the following Teachers have their Departments:—

Regius and Clinical Professor of Medicine, H. W. Acland, M.D., LL.D., F.R.S.
Savilian Professor of Astronomy, Rev. C. Pritchard, F.R.S.
Savilian Professor of Geometry, Henry J. S. Smith, M.A., F.R.S.
Professor of Experimental Philosophy, R. B. Clifton, M.A.
Professor of Natural Philosophy, B. Price, M.A., F.R.S.
Professor of Geology, J. Phillips, M.A., D.C.L., LL.D., F.R.S.
Professor of Mineralogy, M. H. N. Story Maskelyne, M.A.
Professor of Chemistry, Sir B. C. Brodie, Bart., M.A., F.R.S.
Linacre Professor of Physiology, G. Rolleston, M.D., F.R.S.
Professor of Zoology, J. O. Westwood, M.A., F.L.S.

Lee's Reader in Anatomy, John B. Thompson, B.A., Ch. Ch.
Demonstrator in Anatomy, Charles Robertson, Esq.
Assistant Professor of Chemistry, T. H. G. Wyndham, M.A.
Demonstrator of Practical Chemistry, W. Donkin, M.A.
Medical Chemistry, by C. C. Pode, M.B., M.A.
Radcliffe Librarian, H. W. Acland, M.D., F.R.S.
Sub-Librarian, Mr. J. Haines.

Sherardian Professor of Botany at the Botanical Garden, M. A. Lawson, M.A.
Lee's Reader in Chemistry at Christ Church, A. G. V. Harcourt, M.A.
Lee's Reader in Physics at Christ Church, A. W. Reinold, M.A.

The Medical Examinations take place annually in the Michaelmas Term.

Scholarships of about the value of £75 are obtainable at Christ-Church, Magdalen, and other Colleges, by competitive Examination in Natural Science. Every year a Radcliffe Travelling Fellowship is competed for by any who, having taken a first class in any of the Public Examinations of the University, or having obtained some University Prize or Scholarship open to general compe-

sion, propose to study Medicine. The Travelling Fellows receive £200 a year for three years, half the period being spent in study abroad.

More detailed information concerning the University may be obtained from the University Calendar, to be purchased of any Bookseller; concerning the General Education, from the Heads of Colleges; concerning the Medical Examinations, or the courses of study in general, from the Regius Professor of Medicine; and concerning the Scientific Education, from the Professors in the several Departments, as above named.

A course of lectures on Pathology is delivered during the Lent and Easter terms by the Professor of Physic.

A course on Anatomy and Physiology is delivered by Professor Humphry in the Michaelmas and Lent terms.

A course on Practical Anatomy is delivered by Professor Humphry and Dr. Wilson in the Michaelmas and Lent terms.

A course on Practical Histology is delivered by Professor Humphry, Dr. Wilson, and Mr. Martin in the October and Lent terms, and in the long vacation.

A course on Practical Physiology is delivered by Dr. Foster during the terms and in the long vacation.

The course on Chemistry is delivered during the Lent and Easter terms.

The course on Botany is delivered during the Easter term.

The Downing Professor delivers a course of lectures on Materia Medica in the Michaelmas and Lent terms.

Pupils have an opportunity of dissecting in private.

There is a rich and interesting Anatomical Museum open to medical students daily.

Students are admitted to the medical and surgical practice of the Hospital on the payment of 15*l.* 10*s.* for a year, or 15*l.* 15*s.* for an unlimited period.

Medical Students are required to enter at one of the seventeen Colleges, or as non-collegiate Students, and reside nine terms (nearly three years), during the first part of which time they are generally occupied in the study of Classics, Mathematics, &c.; then, having passed the previous Examination in these subjects, they can pursue the study of Medicine by attending the practice of the Hospital, and the Professors' lectures above specified. This done, they may continue their medical studies in Cambridge, or elsewhere.

If it be thought desirable, the student may continue his classical and mathematical reading for a longer period than the above arrangement contemplates; and may, in due time, present himself for the Examination in those subjects, whereby he becomes B.A.

PROCEEDINGS IN PHYSIC. M.B.

The candidate for M.B. must have resided nine terms (nearly three years), have passed the previous Examination in Classics, Mathematics, &c., and an Examination in Algebra, and have been engaged five years in medical study, of which six terms must have been in the University. Only four years of medical study, of which *four* terms are in the University, are required of those who graduate with honours as B.A.

There are three Examinations for M.B. The first may be passed at any time after the previous Examination; the second after two years of Medical study, and the third after the completion of the period of Medical study.

The first Examination is in Mechanics and Hydrostatics, Chemistry with Heat and Electricity, and Botany. The student must have attended lectures on Chemistry and Botany.

Digitized by Google

The Second Examination is in Comparative Anatomy, Human Anatomy, Physiology, and Pharmacology. Lectures must have been attended on Comparative Anatomy, Human Anatomy, Materia Medica, and Pathology, also Hospital Practice for one year.

The Third Examination is in Pathology and the Practice of Physic, Clinical Medicine, and Medical Jurisprudence. Lectures must have been attended on the Principles and Practice of Physic, Clinical Medicine, Clinical Surgery, Medical Jurisprudence, and Midwifery, also Hospital Practice for three years; and the Candidate must have served as Clinical Clerk, or had special charge of patients for six months.

After the Examinations have been passed, an Act must be kept. The candidate reads a thesis composed in English by himself on some subject approved by the Professor. He is then questioned in English by the Professor on the subject of the thesis, and on other subjects in the faculty of a more general nature.

M.D.

The candidate can be admitted to the degree of M.D. in the ninth term (nearly three years), after taking the degree of M.B. A Master of Arts may be admitted to the degree of M.D. at the prescribed period, when he has produced the same certificates and passed the same Examinations as are required for the degree of M.B.; but he is not required to have kept medical terms in the University.

An Act has to be kept similar to that required for M.B., and the Candidate is required to write a short extempore essay on one of four topics, relating severally to Physiology, Pathology, Practice of Medicine, and State Medicine, the selection being made by himself.

M.C.

The candidate for the degree of MASTER IN SURGERY is required to have passed the Examinations for M.B.; to have attended the Surgical practice of a Hospital for three years; to have been House-Surgeon or Dresser during six months; to have attended Lectures on Human Anatomy (two courses with dissections) during two seasons, on Surgery, Clinical Surgery, Midwifery (with ten cases), Practical and Surgical Anatomy, Pathology and Principles and Practice of Surgery, and Clinical Surgery, and Midwifery.

The full time required for the degrees of M.B. and M.C., from entrance at the University, is rather more than *four* years in the case of those who graduate with honours, as B.A.—*i.e.*, who go through the examination for either the Mathematical, Classical, Natural, or Moral Sciences Tripos. Many Medical Students take this course, and go through the Natural Sciences Tripos, because the subjects of the examination (Botany, Chemistry, and Comparative Anatomy) are akin to those of Medicine; and the Student who has passed in any of them is not required to be again examined in them for M.B. He may thus be entirely exempt from the first Examination for M.B., or from parts of it. In the case of Students who do not graduate with honours, the time required to obtain the M.B and M.C. degree is *five* years. The expenses at Cambridge, including residence, lectures, &c., are about 150*l.* per annum; but these are in many cases lessened by Scholarships, which are very numerous, and obtainable by most Students of industry and ability. Some of these Scholarships are given for proficiency in Natural Science, and are open to competition to students who have not entered the University. An Examination for one or more Scholarships is held in Sidney College in October, in Downing College in May, in Trinity College in Easter week (this is open to all undergraduates of Oxford and Cambridge), and in St. John's, Clare, Caius, Pembroke, and St. Peter's Colleges in April or May. Information respecting these Scholarships may be obtained from the Tutors of the respective Colleges.

UNIVERSITY OF DURHAM.

REGULATIONS.

1.—No one shall be held to be a Student in Medicine who has not been registered in a register kept for that purpose. No one shall be so registered unless he has passed the Registration Examination, or such other examination as the Warden and Senate shall deem equivalent. The Registration Examination shall be directed to the rudiments of Religion, Literature, and Science, and shall be conducted by two or more Examiners nominated by the Warden.

2.—No Grace for a Licence in Medicine shall be granted, unless the Petitioner is of the age of 21 years, and has since his registration spent four years in medical study at one or more of the Schools recognised by the Licensing Bodies named in Schedule A of the Medical Act, 1858. No Grace for a Licence in Medicine shall be granted unless the Petitioner has passed two Public Examinations. No one shall be admissible to the first of these Examinations unless he has spent two years at least in medical study as above prescribed. No one shall be admissible to the second of these Examinations unless he has spent four years at least in medical study as above prescribed, and has passed the first Examination. No one shall be admissible to either of these Examinations unless he has produced satisfactory testimonials of conduct, and such certificates of attendance on Lectures and Hospital Practice as the Warden and Senate shall require. Each of these Examinations shall be conducted by three or more Examiners, nominated by the Warden and approved by Convocation, and shall be directed to such subjects of Medical Science and Practice as shall have been fixed on by the Warden and Senate.

3.—No Grace for the Degree of Bachelor of Medicine shall be granted, unless the Petitioner is

of the standing of three terms at least as a Licentiate in Medicine, and of eighteen terms (6 years) at least from the date of his Registration or Matriculation. No one, who is not a Bachelor of Arts, shall be admissible to the Degree of Bachelor of Medicine, unless he has kept three terms by residence at Durham or equivalent residence in the University of Durham College of Medicine, Newcastle-upon-Tyne, and has passed the final Examination for the Degree of Bachelor of Arts, or an equivalent to it, as hereinafter described, besides the Examination for the Degree of Bachelor of Medicine, nor unless he has spent one year at least in Medical Study at some school of Medicine in connection with the University. Residence and attendance at Lectures in Arts at Newcastle-upon-Tyne for one Winter and one Summer Session shall be accounted as equivalent to the three terms' residence at Durham, provided always that such residence and attendance at Lectures shall be in addition to the four years of Medical Study required under clause 2 of this section. The Examination for the Degree of Bachelor of Medicine shall be directed chiefly to the Practice of Medicine. The details shall be arranged by the Warden and Senate.

4.—No Grace for the Degree of Doctor of Medicine shall be granted unless the Petitioner is a Bachelor of Medicine of the standing of twenty-one terms at least (7 years) from his Registration or Matriculation, and of three terms at least from his admission to the Degree of Bachelor of Medicine, nor unless he has performed such exercises as the Warden and Senate require.

5.—No Grace for a Licence in Surgery shall be granted unless the Petitioner is of the age of 21 years, has spent four years in Medical and Surgical Study since his Registration as a Student in Medicine, in some one or more of the Schools recognised by the Licensing Bodies named in Schedule A of the Medical Act, 1858. No Grace for a Licence in Surgery shall be granted unless the Petitioner has passed two Public Examinations. The first of these Examinations shall be the first Examination appointed for Students in Medicine. No one shall be admissible to it, who has not spent two years in Medical and Surgical Study, as above prescribed. The second of these Examinations shall be partly the same as the second Examination appointed for Students in Medicine, and shall be partly in Surgical subjects. No one shall be admissible to it, who has not spent four years at least in Medical and Surgical study as above prescribed, and passed the first Examination. No one shall be admissible to either of these Examinations unless he has produced satisfactory testimonials of conduct, and such certificates of attendance on Lectures and Hospital Practice as the Warden and Senate shall require. Each of these Examinations shall be conducted by three or more Examiners nominated by the Warden, and approved by Convocation, and shall be directed to such subjects as shall have been fixed on by the Warden and Senate. The second Examination for a Licence in Surgery may or may not be passed at the same time with the Second Examination for a Licence in Medicine.

6.—No Grace for the Degree of Master in Surgery shall be granted unless the petitioner is a Licentiate in Surgery, and also a Licentiate in Medicine, and is of the standing of 18 terms (6 years) at least from the date of his Registration or Matriculation, and of three terms at least from the date of his admission to the Licence in Surgery. No one, who is not a Bachelor of Arts, shall be admissible to the Degree of Master in Surgery unless he has kept three terms by residence at Durham or the equivalent residence at Newcastle-upon-Tyne provided for in clause 3 of this section, and has passed the final Examination for the Degree of Bachelor of Arts, or an equivalent to it, as hereinafter described, besides the Examination for the Degree of Master in Surgery, nor unless he has spent one year at least in Medical and Surgical study in some school of Medicine in connection with the University. The Examination for the Degree of Master in Surgery shall be directed chiefly to the Practice of Surgery. The details shall be arranged by the Warden and Senate.

7.—The Warden and Senate shall have authority to arrange for Students in the Faculty of Medicine an Examination equivalent to that for the Degree of Bachelor of Arts, by substituting for the Theological part of it an Examination in Hippocrates, Galen, or such other ancient medical author or authors as they may think fit.

8.—Any Student in Medicine who was registered before Easter Term, 1868, shall be entitled to be admitted to the Degree of Master in Surgery on the same conditions as are above required for a Licence in Surgery.

9.—These Regulations shall not interfere with the power of the University to grant Degrees by Diploma to persons of sufficient standing and approved merit.

Medical Scholarships.

A Medical Scholarship, of the annual value of £25, is awarded by Examination at the commencement of Michaelmas Term, early in October in each year, and is open to all candidates who have been duly registered as Students in Medicine. The scholarship is tenable for four years by a student pursuing his medical studies, and not of sufficient standing to proceed to a Licence in Medicine.
